JUNGLE KIDS
FOR CHRIST
Empowering Children

We are passionate empowering children in the jungle of Ecuador so that they can break the cycle of poverty and abuse and share a message of transformation with their family, community, country, and world.

THE PROBLEM:

~ ISAIAH 59:9 ~

In the Napo River watershed of Ecuador, generations are trapped in a devastating cycle of poverty and trauma, where children often bear adult responsibilities from a young age, and education is a distant dream amid trauma and neglect. Overwhelmed by economic hardship, domestic violence, and cultural norms that prioritize alcohol and machismo, families face insurmountable barriers to breaking free. With resource-strapped schools that lack proper support, many children are passed through the system without truly learning, perpetuating a cycle of despair. This profound injustice not only robs children of their childhood but stifles the dignity and potential that each person inherently possesses, obscuring the divine image they carry within.

OUR LOCATION:

Puerto Misahuallí, Napo, Ecuador

220 km SSE of Ecuador's capital city, Quito.

Misahuallí is a small river port town on the edge of the Amazon rainforest, popular with local and international tourists as a starting point for jungle excursions. Known for its capuchin monkeys, the town's main income sources are tourism, farming, and day labor.

OUR MINISTRIES:

Antioch Christian Academy

La Residencia

Warrior Basketball Club

Community Development

Short-term Teams

THE SOLUTION:

~ JEREMIAH 29:11 ~

The process of healing from deep wounds unfolds in three stages: **Encouragement**, where we support families and young people by fostering hope and practical help; **Exhortation**, where we stand by them through challenges and promote resilience and reconciliation instead of punishment; and **Empowerment**, where our ultimate goal is to help families break the cycle of despair, enabling individuals to become living examples of change and sources of hope for the next generation.

ENGLISH TEACHERS

Teach English and Open Doors to Brighter Futures in the Amazon

THE VISION:

In the jungle, English fluency opens doors to higher education and meaningful careers that enable students to support their families. ACA's English program—and especially our native-speaking teachers—is one of the primary reasons parents choose our school, making this role central to our mission of empowering children. We seek highly motivated individuals with training or experience in TESOL, English education, or a related field. Ideal candidates are organized, thrive in a cross-cultural team environment, and care deeply about the students they teach.

THE BASICS:

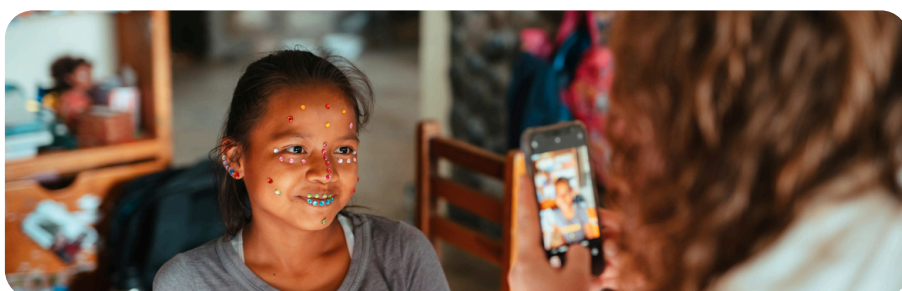

- 2+ year commitment
- Must raise your own support (~\$24k/year)
- Teaching experience is preferred

DIGITAL MARKETING MANAGER

Share the stories of God's work through powerful videos, photos, and words that inspire partnership.

THE VISION:

Storytelling plays a vital role in sharing God's work in the jungle and connecting our ministry with partners around the world. This role will help build awareness through videos, photos, and written stories across digital platforms. We are looking for a self-motivated, creative storyteller with a passion for quality and the ability to capture meaningful moments. Children learn and grow every day, and we need someone to help us share their stories with others.

THE BASICS:

- 2 year commitment
- Must raise your own support (~\$24k/year)
- Videography experience preferred

BOYS HOME DIRECTOR

Pioneer a new ministry program focused on providing a healthy and structured environment for at-risk boys from deep jungle communities.

THE VISION:

Living 2 + hours deeper into the Amazon jungle via rocky roads and shaky canoe rides, these families are committed to providing their boys with an opportunity to graduate high school and have more options than they would not have had otherwise. We are looking for a Christian couple committed to supporting these boys long-term. They will need to be resilient, strong communicators, creative, and highly organized. This role will be helping raise these boys while managing the home's budget, documentation, scheduling, and more.

THE BASICS:

- 3+ year commitment
- Must raise your own support (~\$24k/year)
- Christian, married couple

AFTER SCHOOL PROGRAM LEAD

Help Bring Student Passions to Life Beyond the Classroom

THE VISION:

The school day is filled to the brim with academic learning, leaving no extra space to consider and explore ideas and passions on a deeper level (beyond math, science, etc.). We have ideas to lead teachers and students in extended Bible studies, open a debate club to encourage conversation, establish a theater troupe, and more. We are looking for an individual who is highly organized, enjoys solving problems, and is people-oriented. We have people excited to lead an activity but not able to spearhead the initiative.

THE BASICS:

- 2+ year commitment
- Must raise your own support (~\$24k/year)
- Event organization experience preferred

DANIEL INITIATIVE COORDINATOR

Equip and Support ACA Alumni to Stand Firm, Thrive, and Lead Beyond High School.

THE VISION:

Transitioning from high school life into college and beyond is not easy, and unlike in other places, there are not many resources to help alumni and their families navigate these new waters. Things like college applications, real-world challenges that require defending your faith and not falling to the world, and making connections for financial aid and more. We are looking for an individual who is a connector of people, organized, and able to navigate multiple cultures to coordinate this program, support ACA alumni, and help prepare ACA students for life beyond high school.

THE BASICS:

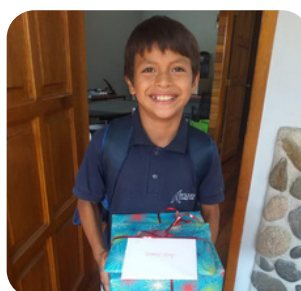

- 2 year commitment
- Ability to travel between USA & Ecuador
- Must raise own support

SPONSORSHIP COORDINATOR

Connect sponsors with children in the Amazon and help fuel life-changing education, care, and hope.

THE VISION:

In the Amazon jungle, access to quality education and character-developing programs is scarce. JKC's sponsorship program provides the funding and resources our school, boarding home, and basketball club need to impact the lives of more than 350 students. We are seeking a highly organized, self-motivated individual who values accuracy in documentation and communication. This role connects sponsors with children while ensuring donations are processed correctly. JKC's sponsorship programs raise more than \$185K each year to support this life-changing work.

THE BASICS:

- 2 year commitment
- Hourly pay available.
- Experience in database management is preferred.

ENGLISH DEPARTMENT LEAD

Lead a thriving English program that opens doors for students in the Amazon.

THE VISION:

In the Amazon region of Ecuador, fluency in English opens doors to higher education, and meaningful job opportunities to support their families. ACA's English program is a key reason parents choose us, making this role key to our mission of empowering children. We are seeking a qualified leader to strengthen a high-achieving program by developing teachers, refining curriculum, and raising the standard of English instruction. The ideal candidate will have extensive middle or high school teaching experience, the ability to lead and develop others, and a deep passion for education.

THE BASICS:

- 3+ year commitment
- Must raise your own support (~\$24k/year)
- Teaching experience necessary

MENTAL HEALTH & SPECIAL EDUCATION PROFESSIONALS

Bring vital mental health and learning support to students in the heart of the Amazon.

THE VISION:

Even in the remote areas of the jungle, the need for mental healthcare services and special education support is urgent. At our school of more than 250 students, we provide counseling services for students and their families, but our current team includes only two psychologists and no qualified staff dedicated to supporting students with learning needs. We are seeking credentialed professionals with experience working cross-culturally and serving children in these areas of care. In our region, these resources are limited, so our work in these areas is vital for student success.

THE BASICS:

- 2+ year commitment
- Must raise your own support (~\$24k/year)
- Appropriate degree required

Dear Future Team Member,

At Jungle Kids for Christ, the heart of our mission is the belief that every child is created in the image of God and deserves the opportunity to write their own story. In the Ecuador jungle, we are dedicated to transforming this vision into reality through quality education and Christ-centered character development programs, empowering forgotten children with the knowledge, skills, and agency they need to reclaim their life stories so that they become change agents in their communities and be powerful witnesses and testimonies to the transformational power of the Gospel.

Each of these roles offers a unique opportunity to help us fulfill our ministry's calling: empowering children of the jungle for the glory of God. When you join us, you will be part of a team that loves the Lord, seeks His will daily, believes in the power of prayer, and genuinely cares for His children and their families. Regardless of your role, your work can make a long-term impact on the lives of countless children if you allow the Holy Spirit to work through you.

We can see that the harvest is coming. As Jesus said, "The harvest is plentiful, but the workers are few." We invite you to join us and be part of the coming harvest. We need you, and Jesus may be calling you to take a leap of faith and serve in the Ecuadorian jungle.
